**Adaptable deck control allows for mow width flexibility.** Easily change from mowing with 5, 6 or all 7 decks to trim around obstacles, varying terrain and wide spans of turf up to 124 in. (3.15 m) width-of-cut.

### Cutting Versatility

Joystick enabled deck hydraulic lift system has individual controls for rear wing decks. This allows operators to mow with five, six or seven decks, providing mow-width flexibility and maneuverability around obstacles.

**Comfortable, productive ride** provided by a premium air-ride suspension seat, a tilt steering wheel, and an ergonomic control console. Standard foldable ROPS keeps the operator safe and allows maneuverability in low height areas.

**Powerful Kubota® 65.2 hp (48.6 kW) turbo-charged, Tier 4 Final (Stage IIIB) engine** with intelligent clean technology and onboard control module to precisely manage the common rail fuel injection, exhaust gas recirculation, and diesel particulate filtration.

**SureTrac™ 4WD** parallel-cross-series system automatically transfers power where needed to provide superior traction for hill climbing and side slope operation.

Factory-filled with GreensCare™ Biodegradable Hydraulic Fluid

**TrimTek™ deck design** with exclusive downdraft blade keeps clippings suspended longer for exceptional mulching results. Three-tiered discharge opening distributes clippings evenly for a superior after-cut appearance.

**Seven, fully floating 22 in. (55.9 cm) TrimTek™ contour rotary decks** are the ideal size to mow hilly terrain with sharp undulations and reduce the chance of scalping.

**Tree feeler** system located off the front decks aids in operational visibility of the rear wing deck width.

**Maintenance free, wet parking brakes** integrated into the front wheel motors deliver safe braking on even the steepest of slopes and have no linkages or pads to service or adjust, reducing total cost of ownership.

**Wing deck impact absorption system** prevents damage and costly repairs. A heavy-duty spring cushions the decks from front impact while the shear pin enables breakaway and quick replacement.
